KENNEDALE ISD
Kennedale High School

Friday, August 14, 2020

Parents and Students,

The Kennedale ISD Board of Trustees recently voted for all KISD campuses to adopt a virtual learning model for the first 4 weeks of school. From August 26-September 24, 2020, all Kennedale High School courses will be facilitated virtually using the Google Classroom platform. On September 24, 2020, students will have the option to attend school virtually or in-person; however, not all Kennedale High School courses will be offered virtually after the initial 4-week, virtual-only period.

This document serves to provide parents and students with important information regarding course offerings to assist families in determining the appropriate learning option for their children. In this document, parents and students will find a list of courses offered at Kennedale High School in 2020-21 and the KHS 2020-21 Master Teacher Schedule. This document also serves as a required TEA notification:

“LEAs must communicate which courses have on-campus requirements and notify parents and students before the start of the course that failure to complete the required on-campus assignments could cause the student to not be awarded course credit. This notification ensures students have an option to select courses that can be completed remotely if desired. In this case, it is appropriate to encourage students whose parents wish for them to remain fully remote to choose different electives that can be satisfied in a fully remote setting. Failure to appear on campus to complete on-campus assignments could also result in absences that could subject the student to the 90/10 minimum attendance for class credit requirement.”

In the KISD survey sent to families in July, 55% of KHS parents chose the in-person learning option for their students and 45% chose virtual learning. We understand that parents and students did not have a clear picture of our school model when the survey was sent. Since, KISD has drafted a “Blueprint” for 2020-21, and campus leadership teams have worked to develop campus safety plans and school models. In addition to these efforts, the Kennedale High School Task Force compiled a list of courses, analyzed resources, considered guidance from TEA (such as <https://tea.texas.gov/sites/default/files/covid/SY-2020-21-Attendance-and-Enrollment.pdf>), and gathered feedback from teachers to make final determinations regarding whether each course can be offered virtually or requires partial or full in-person participation.

Ultimately, the delivery options for each course were determined by the following criteria: course requirements from the Texas Essential Knowledge and Skills (TEKS), TEA guidance/recommendations, participation requirements (UIL activities and CTE courses), accessibility and availability of resources and equipment needed to complete assignments by remote learners, and whether the coursework can only reasonably be completed in person.

In the KHS 2020-21 Course List section, courses are grouped by content area: English, Mathematics, Science, Social Studies, CTE, Electives, Foreign Language (LOTE), Electives, and Physical Education. Courses that count for credit in multiple content areas and are listed more than once for easier reference. The learning options for each course are listed and color coded:

- Virtual and In-Person,
- In-Person Only, and
- Blended and In-Person.

Most of Kennedale High School’s courses will be available to students in both virtual and in-person formats in 2020-21. However, some courses will only be offered in-person or through a blended model. Some examples of “In-Person Only” courses are Athletics and courses that require hands-on experiences (such as most CTE Practicums) or performance outcomes (such as Debate and Choir). Blended courses require both virtual and in-

KENNEDALE ISD

Kennedale High School

person participation by students. Blended courses include Advanced Theatre, advanced CTE Culinary Arts courses, and others. Failure to complete the required on-campus assignments of in-person or blended classes could cause the student to not be awarded course credit. Failure to appear on campus to complete on-campus assignments for in-person or blended classes could also result in absences that could subject the student to the 90/10 minimum attendance for class credit requirement.

Families who choose virtual learning for their students must cross-reference individual student schedules with the course list in this document. I have provided families with some sample student schedules with recommendations for virtual learners based upon course options.

Students may access their student schedules through the Ascender Parent Portal, which is available on the Kennedale ISD application for mobile devices. If you have questions or need help accessing the Ascender Parent Portal, please contact Candi Allstot, KHS PEIMS Clerk, at allstotc@kisdtx.net or 817-563-8100.

After reviewing student schedules and cross-referencing the course list, families will be able to make an informed decision regarding the learning options for their children. To assist families, I will hold a virtual parent information meeting (via YouTube Live) to explain our school model and these options in more detail. Parents/students will be able to ask questions using the YouTube chat feature. I will record the parent information meeting and make it available for our stakeholders who cannot attend.

I have attached the KHS 2020-21 Master Teacher Schedule to help in your decision-making and planning. Families who choose virtual learning in 2020-21 may request schedule changes or to speak with a KHS Counselor using the following link:
